

Is sending manpower on site just to collect vibration data a hassle?

You can now save your valuable resources by using

## WIRELESS VIBRATION MONITORING SYSTEM

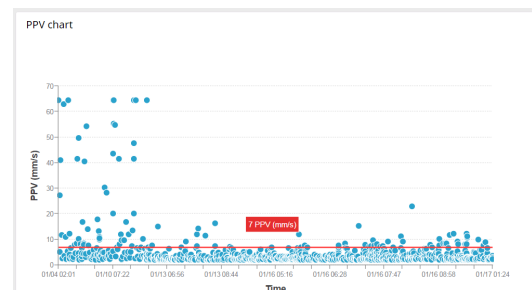

### FEATURES

- **Real-time data** from anywhere with an internet connection
- **DIN 4150** standard visualization
- **Customized alert level**
- **Project management** of multiple sites
- Customizable **access rights** for different personnel
- **Calibration** reminder

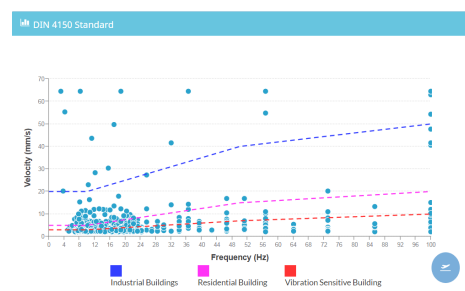

Report of Probe

Date/Time		Velocity(mm/s)			PPV		Frequency(Hz)		
Date	Time	R	V	T	PPV	R	V	T	
2017-01-04	02:01	9.14	19.80	64.50	64.50	73.10	102.40	28.40	
2017-01-04	02:04	1.14	0.89	5.21	5.21	21.30	170.60	39.30	
2017-01-04	02:04	8.13	26.90	27.40	27.40	25.60	2.70	9.60	
2017-01-04	02:11	2.54	9.14	41.10	41.10	128.00	170.60	39.30	

Retrieve data for selected dates over the internet

Alert sent through **email** or **mobile app** when limit exceeds
