Justrite's Steel Cabinets for Corrosives come in standard 30, 45, and 60-gallon (114, 170 & 227L) sizes as well as Compac, Countertop, Undercounter, and Piggyback styles. All models have the same quality features as Justrite's flammable cabinets including: double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, three-point self-latching doors and leveling feet. To resist aggressive chemicals, acid cabinets also include polyethylene trays that sit on top of galvanized steel shelves and a separate polyethylene liner for the bottom sump. The liner can be removed for easy cleaning of drips and leaks.

The popular 30-gallon (114L) two door cabinet also includes an extra polyethylene top work tray which can be secured to cabinet-top for a handy work surface. An all-epoxy, baked-on powder coat finish, inside-and-out, provides increased chemical resistance. Paint is exclusively formulated to resist the acids, bases and solvents often used in laboratories.

A wide variety of safe, compliant storage options for corrosives make steel cabinets a popular choice.

Specialty Cabinets FOR CORROSIVES

Safety Cabinets

Smaller-sized cabinets fit nearly anywhere.

Specially-sized Cabinets for Corrosives offer a unique opportunity to customize work areas and make the most of available space. Whether adding to existing storage space or making solvents readily available at workstation locations, these smaller-sized cabinets are the solution when space is at a premium. Cabinets have the same features as our larger cabinets in a convenient compact size.

Blue Steel Sure-Grip® EX Countertop & Compac Cabinets

These cabinets are not recommended for storage of phenol, nitric acid or sulfuric acid.

(Accessories see page 13)

Expand or segregate storage with Piggyback Cabinets.

Justrite's Piggyback Cabinets are designed to mount on top of our standard 30- and 45-gallon (114 & 170L) safety cabinets. They can be used singly or stacked to provide additional storage. Piggyback cabinets also lend themselves to wall mounting or countertop use.

Blue Steel Sure-Grip® EX Piggyback Safety Cabinets

Number of Doors and Style	Capacity Gallons	Ext. Dimensions H x W x D (mm)	Adjustable Shelves	Approx./Lstg. Regulation*	Ship Wt. Lbs./Kgs.	Model No.
2 door, manual	12/45L	18" x 43" x 18" (457 x 1092 x 457)	-	FM,N,O	130/59	891302

These cabinets are not recommended for storage of phenol, nitric acid or sulfuric acid.

(Accessories see page 13)

Store flammable *and* corrosive liquids safely.

Dual Storage Safety Cabinets offer storage of both flammable and corrosive liquids within one single cabinet. A double wall partition with 1-1/2" air space creates two 5-gallon compartments to isolate contents. Each compartment door features a U•Loc™ padlockable handle for easy access and independent locking. Large warning labels (yellow for flammables, blue for corrosives) clearly identifies contents. Corrosive compartment includes removable poly sump liner that resists aggressive chemicals.

Cabinets are finished inside and out with white epoxy powder paint for increased chemical resistance. They are "Piggyback" sized to fit atop standard 30- or 45-gallon (114 or 170L) Justrite cabinets, can be used singly on benchtop or stacked two-high, or could be wall mounted with optional Wall Hanger Assembly. Optional Steel Shelf Riser is available to maximize storage of small bottles as well as a Poly Liner to protect the Shelf Riser when used in the corrosives compartment.

Dual Storage Safety Cabinets

Number of Doors and Style	Capacity Gallons	Ext. Dimensions H x W x D (mm)	Approx./Lstg. Regulation*	Ship Wt. Lbs./Kgs.	Model No.

Keep solvents close-at-hand by taking advantage of undercounter space.

Undercounter Cabinets for corrosives provide quick access at workstations by utilizing often unused undercounter space. Cabinet is sized and fitted with a 3 1/2" h x 2 1/2" d kickplate to mount flush with cabinetry. Dual vents with flash arresters are located on the back wall for easy connection if ventilation is needed. Internal leveling feet adjust on 1 1/8" centers for alignment on uneven floors. Cabinet height raises 5/8" with leg levers fully extended.

Slimline styled cabinets are ideal for areas with limited floor space or they can be used to expand current storage conditions.

892302

892222

Slimline and Deep Slimline Cabinets for Corrosives are designed for the storage of corrosive liquids with galvanized steel SpillSlope™ shelves and bottom sump that are equipped with polyethylene trays to contain drips and leaks of aggressive chemicals. Trays can be removed for easy cleaning. Specially-formulated all-epoxy powder coat paint finish provides increased chemical resistance. Trilingual Haz-Alert™ "ACID" label on front door makes identification easy. They have all the same quality features as Justrite's flammable cabinets, including: double-wall construction, dual vents, grounding wire connections, adjustable shelves, leakproof sills, three-point self-latching doors with U•Loc™ padlockable handle and leveling feet.

Slimline Cabinet fits modularly alongside our 45-gallon (170L) cabinet for expanded storage or to segregate incompatible liquids – or use alone in hard-to-fit places for storage near points-of-use

Deep Slimline Cabinet fits alongside our 60- and 90-gallon (227 and 341L) safety cabinets for expanded storage. Also suitable for free standing use for high capacity storage!
