

LEE HUNG

Your Premier Scientific Source. Since 1983

NEA APPROVED NOTIFICATION VENDOR

REAL-TIME NOISE MONITORING SYSTEM (RTNM)

Monitor. Notify. Comply.

24/7 NEA-Compliant Noise Monitoring for Construction Sites.

KEY FEATURES & BENEFITS

REAL-TIME MONITORING

Continuous noise measurement 24/7

TELEGRAM ALERT NOTIFICATION

Instant alerts when thresholds are exceeded

AI CHATBOT

Get instant answers and site insights via Telegram

CLOUD CONNECTIVITY

Access live noise levels anytime, anywhere

HISTORICAL REPORTING

Retrieve data and generate reports with ease

TYPE 1 ACCURACY

IEC compliant Type 1 Sound Level Meter

NEA COMPLIANCE

NEA-approved notification vendor

GENERATE PRE BOUNDARY CONSTRUCTION NOISE REPORT

Automatically generate Pre Boundary Construction Noise Report for NEA submission with just a few clicks.

HOW IT WORKS

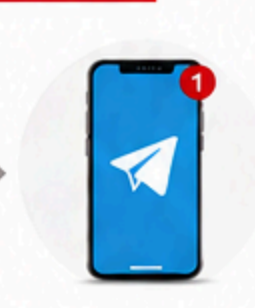

1 RTNM STATION

Measures and records noise levels in real time

2 CLOUD SERVER

Secure transmission of data to the cloud

3 TELEGRAM ALERT

Instant notification to designated personnel when limit is exceeded

AI Chatbot available for instant assistance

4 ONLINE DASHBOARD

View live data, history, and generate reports from anywhere

Generate Pre Boundary Construction Noise Report for NEA Submission

WHY LEE HUNG?

TRUSTED SINCE 1983

Over 40 years of experience in scientific instrumentation

NEA APPROVED VENDOR

Authorized to supply RTNM in Singapore

TYPE 1 INSTRUMENTATION

High accuracy and reliability compliant with IEC standards

LOCAL SUPPORT

Singapore-based team for fast response and support

PROVEN TRACK RECORD

Deployed across numerous construction projects since 2007

ENSURING COMPLIANCE. PROTECTING COMMUNITIES.

Our Real-Time Noise Monitoring System helps you meet regulatory requirements and maintain a good relationship with the community.

SINCE 2007

Deployed Since 2007

1000+

Sites Deployed Islandwide

RELIABLE

Accurate, Reliable and Dependable
